## **Report of Faculty Development Programme**

### **CHALLENGES OF HIGHER EDUCATION**

**DATE- 9<sup>TH</sup> JULY -12<sup>th</sup> JULY 2019**

Resource Person: Dr Manju Sinha,  
Dr Tanveer Yunus

A four days Faculty development programme was successfully conducted in Bharathi College of Education, on 9<sup>th</sup> to 12<sup>th</sup> July 2019. The FDP programme received an overwhelming response with 61 participants from different esteemed institute. Date wise brief Report for each of the four days FDP programme is given below.

#### **Date: 09<sup>th</sup> JULY 2019 (First Day) Inaugural Session**

The programme was inaugurated in the morning at Multipurpose Hall on 28<sup>th</sup> Aug 2018 by hands of Dr Manju Sinha, Dr Tanveer Yunus, Mr Nitin Parashar, and Mrs Chhavi Sinha.

In welcome speech, Hon. Principal Dr Upendra Upadhyay shared his views with the faculty participants that if faculty wants to develop themselves and their students, then attending such faculty development programmes would enhance their skills of teaching concepts practically. Sir further shared that it helps to improve the performance of faculty in teaching and highlighted the importance and objectives of organizing faculty development programmes. He briefed the participants about the subjects chosen for the FDP and highlighted the reasons and importance of the same. In the inaugural speech, Hon. Dr Manju Sinha shared her views on faculty development. She further added that this programme will provide special benefits to faculty members. Two Performance one solo dance by Pratima and another group dance by Vinita and group was performed. The inauguration programme ended with vote of thanks by Dr Deepali Parashar.

**Attested**

In the second session, resource person Dr Manju Sinha started her discussion with very basic idea of concept of education and the challenges in higher education. She shared few very important aspect to be considered in higher education. India's higher education system is the world's third largest in terms of students, next to China and the United States. In future, India will be one of the largest education hubs. India's Higher Education sector has witnessed a tremendous increase in the number of Universities/University level Institutions & Colleges since independence. The 'Right to Education Act' which stipulates compulsory and free education to all children within the age groups of 6-14 years, has brought about a revolution in the education system of the country with statistics revealing a staggering enrolment in schools over the last four years. Today, Knowledge is power. The more knowledge one has, the more empowered one is. However, India continues to face stern challenges. Despite growing investment in education, 25 per cent of its population is still illiterate; only 15 per cent of Indian students reach high school, and just 7 per cent graduate. The quality of education in India whether at primary or higher education is significantly poor as compared to major developing nations of the world. She helped the participant to understand the topic through various example and various data. Later all the resource person shared their views and the session ended with vote of thanks by Dr Deepali Parashar. Participants departed after National Anthem.

**Date: 10<sup>th</sup> JULY 2019**  
**(Second Day)**

On the second day, all the guests were welcomed and a group dance by Nutan and group was performed. Dr Manju Sinha started her discussion on the topic. She highlighted the various challenges pointwise that help the participant to understand the topic in detail. Various point he dealt with were:

1. Enrolment Management and student retention
2. Students have higher standards
3. More competition
4. Focus shifting from degrees to 'experiences'
5. Rising costs of education
6. Inclusion and diversity

After lunch Dr Tanveer Yunus started his session and continued to deal with the same topic and elaborated it .

**Attested**  
  
\_\_\_\_\_

**Date: 11<sup>th</sup> JULY 2019**  
**(Third Day)**

All the guests and participants were welcomed on the third day, followed by the dance program of Rashmi Dungdung. Mr Upendra Upadhyay addressed the guest and participants. Dr Tanveer Yunus started the session and stated that Over the last half a century and particularly in current scenario, teaching learning process is undergoing a shift. Now classrooms are student centred classrooms and role of a teacher is more as facilitator rather than an dictatorial master. This change has made the teachers job even tougher. Gone are the days when the teacher were indulged in transferring the contents of program to an inactive group of students. Now days, teachers try new experiments in each classroom that includes learning by doing, activity based learning, project based learning, development of various skills including core skills like thinking and cognitive. Today, there are many challenges in front of the teacher to which he/she has to be face and deal effectively. A few of these are: - Reorientation of subject knowledge - Vitalizing of professional studies - Improving methods of teaching and evaluation - Improving of student- teaching relationship - Development of special programmes and courses - Revision and improvement of curriculum. - Acquaintance with the technology - Imparting knowledge based on learning by doing - Child centred education.

In second half session Dr Manju Sinha stated that for providing teachers of that quality which can meet the above challenges improvement in teacher education should be done at two levels.

### **Creating new teacher educators**

Incompetent teachers and students, Inappropriate Teaching Practice, Lack of subject knowledge, Changing qualifications of the teacher educators and few more.

### **Training of in service teacher educators**

Training course, Supervision of teacher educator and Incentives of teacher educator

Discussion on the topic was made by all the resource persons and at last everyone sang National Anthem before leaving. Vote of thanks was given by Mr Vivek Raj Jaiswal

**Date: 12<sup>th</sup> JULY 2019**  
**(Fourth Day)**

Last day all the guests and participants were welcomed and addressed by IQAC Coordinator Mr Manoj Kumar Gupta . Student of college performed Nagpuri Dance which was very entertaining for everyone. The last session was carried out by both the resource persons. Dr Tanveer Yunus stated that at present, Indian education system is at alarming situation. Knowledge and means of gaining knowledge are changing at every moment. But due to our poor teacher education system we are unable to produce teachers of such quality who can cope with the new emerging trends of the education. If we really want to provide good education to our coming generations then we must work upon the above identified issues and meet these challenges to overcome all the problems which come across the way of improvement of our education system. Teacher education should be so strong that can provide teachers such an insight that he/she himself can think upon practical problems of teaching and learning process and give possible solutions of these problems.

After lunch all the interested participants were invited to share their views on the topic in valediction session. A token of respect was given to the resource persons. Feedback was taken by all the participants presented over there.

The session was concluded with certificate distribution and vote of thanks Dr Amit Kumar.

The following feedback was received from the participants:

1. 89% of the participants felt that the delivery and presentation of the resource person was good.
2. 90% of the participants were of the opinion that the FDP brought practical knowledge of the subject in them.
3. 92% of the participants felt that the FDP was coordinated very well.
4. Participants felt that such FDP should be arranged regularly.
